Dear Mr Murphy

I spoke to your neighbour Ms Doreen Horan this afternoon regarding her appeal against the issuing by Kerry County Council of an Air Pollution Licence to Roadstone Limited. She asked me to send you an email update as she does not have access to email, I trust this is ok with you as I believe that the update will be of interest to you also.

Ms Horan had been in contact with Kerry County Council requesting access to the documents relevant to the Air Pollution Licence decision. Her understanding from a conversation that she had with Kerry CC was that the documents were with the EPA.

I informed Ms Horan that the EPA wrote to Kerry County Council on the 30th of June informing them that they are required to make the documents relevant to the decision available for viewing at their offices within 14 days of the date of the letter i.e. 14th of July (see extract from letter below)

Please note that the parties to the appeals are being notified that copies of the documents relevant to the application the subject of the appeal will be available for inspection at your offices after the expiration of **a period of fourteen days** from the date of this letter.

I am on Annual Leave next week but I have asked my colleague to contact Kerry County Council to enquire as to whether the documents are available for viewing or not. If they have not been made available we will ensure they do so and the 21 day time for observations for you and other appellants will begin from that date. My colleague will email you with an update as soon as he has some information for you, alternatively I will deal with this on my return.

Rest assured you will be given time to review the documents and submit comments should you wish to do so.

Kind regards

Tara
