Castletown	A0044-01
Lobinstown	A0052-01

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with Regulation 24 of the Waste Water Discharge (Authorisation) Regulations 2007.

You are therefore requested, in accordance with Regulation 25(c)(ii) of the regulations, to take the steps to supply the information detailed below for **each** of the above named agglomerations.

Please confirm that the current p.e. includes the maximum average weekly loading for the agglomeration having taken account of local festivals, peak holiday seasons, etc.

Your reply to this notice should include a revised non-technical summary which reflects the information you supply in compliance with the notice, insofar as that information impinges on the non-technical summary.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction.
