                 Co. Cork |
Reasons for the Decision

The Environmental Protection Agency is satisfied, on the basis of the information available, that subject to compliance with the conditions of licence Reg. No. P0792-02 granted on the 12/03/2013, as well as any amendments noted herein, any emissions from the activity will comply with and not contravene any of the requirements of Section 83(5) of the Environmental Protection Agency Act 1992 as amended.

A screening for Appropriate Assessment was undertaken to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activity, individually or in combination with other plans or projects is likely to have a significant effect on a European Site(s). In this context, particular attention was paid to the European sites at the Gearagh SAC (site code 000108) and the Gearagh SPA (site code 004109) and the Agency considered, for the reasons set out below, that the activity is not directly connected with or necessary to the management of those sites as European Sites and that it can be excluded on the basis of objective scientific information, that the activity, individually or in combination with other plans or projects, will have a significant effect on a European site, and accordingly the Agency determined that an Appropriate Assessment of the activity is not required.

It has been determined that this installation is not likely to have a significant effect on a European Site as the proposed amendment does not substantially change the current nature or extent of the operations at the installation.

Technical Amendment

In pursuance of the powers conferred on it by Section 96(1)(c) of the Environmental Protection Agency Act 1992 as amended, the Agency amends the licence, granted to Nutricia Infant Nutrition Limited, Castleview, Macroom, Cork.

Henceforth, the licence shall be read in conjunction with a Section 82A(11) Amendment issued on 16/12/2013 and the amendments set out below.

This technical amendment is limited to the following Schedule:
Amendments

Amended Schedules

Amend Schedule B.1 Emissions to Air of the existing licence as follows:

B.1 Emissions to Air

**Emission Point Reference No.:** A1-1 (Robey Boiler)

**Location:** Boiler Stack (134700E 69934N)

**Volume to be emitted:**
- Maximum in any one day: 336,000 m³
- Maximum rate per hour: 14,000 m³

**Minimum discharge height:** 37m above ground
