Note 1: Current allocation data which includes changes in allocation from the original NIMs to take account of closures, partial cessations, recovery from partial cessations, significant capacity reductions and changes in carbon leakage status that have occurred up to the end of 2015.

Note 2: This installation has not yet reached the start of normal operation. It will be required to apply for a significant capacity increase when the start of normal operation has been achieved.

Note 3: Installations highlighted in red have ceased operations or dropped below the threshold and are no longer in the Emissions Trading Scheme.

Note 4: Installations highlighted in blue have had changes in allocation since the original NIMS to take account of partial cessations, recovery from partial cessations, significant capacity reductions and changes in carbon leakage status. Refer to the EPA website for details of the changes.
