'Towards 2020: The Environment in Ireland's Future'

Environment Ireland 2007

Environment Ireland, now in its third year, is Ireland's largest conference on environmental policy and management and is organised by bmf conferences in association with the Environmental Protection Agency (EPA) and the Department of Environment, Heritage & Local Government. The conference, which is attended by over 300 delegates, will take place at the Burlington Hotel conference centre.

The theme for the 2007 conference is 'Towards 2020: The Environment in Ireland's Future'. It comes at a time of an increasing pace of change as environmental issues rise up both

Environment Minister Dick Roche TD meets well known environmentalist Duncan Stewart at the EPA stand at last year's Environment Ireland Conference. Included in the photo is Alison Harvey from the Heritage Council.

national and corporate agendas. It will again bring together, at the highest level, all those individuals and organisations with an interest in environmental policy and management. Its objective is to create a genuine, in-depth understanding of areas where environmental issues have an impact on the island of Ireland as a whole, and how progress can be made on them.

The conference will focus on key environmental issues such as climate change, sustainable development, the environmental impact of transport, water resource management etc. Through the plenary sessions and extensive workshop programme, the two day event will highlight existing areas of best practice, as well as drawing attention to policy areas where possible all-island co-operation can be initiated or extended. This North-South focus will be an important feature of the conference.

Conference Programme

The opening conference plenary will establish an overview of the key areas for environmental policy in Ireland and in a wider European context. EPA Director-General, Mary Kelly will give a substantive 'state of Ireland's environment' presentation which will highlight areas for future change. Both the Dublin and Northern Ireland Environment Ministers will address the conference, outlining their environmental policy priorities.

Professor Sharon Turner from Queen's University, Belfast will close the session with an overview of issues relating to environmental governance based on her experience advising Northern Ireland government departments on environmental policy and legislation, and general expertise in the area of environmental law.

Following coffee, there will be a plenary session on 'Working Towards a Sustainable Island' which will cover a range of environmental sustainability issues both urban and rural. In the afternoon there will be sessions on waste management, the local environment and the management of water resources.

Day 2 of the conference will be of especial interest to those working across the public sector, industry and commerce in environmental management roles, with the morning centred around environmental management issues. Running parallel with this will be a workshop examining issues around transport and the environment.

With climate change now perhaps accepted as the major global issue, **Environment Ireland** will dedicate the afternoon of Day 2 to an examination of this vitally important issue. Speakers from both within Ireland and further afield will present on the importance of climate change as a national issue, as well as presenting some potential solutions to tackling the problem, including on a individual basis.

This session will include a round-table panel discussion, allowing delegates the opportunity to address any questions directly to the expert speakers. It will also allow the speaker panel to air their views on climate-related issues in a less formal context than the structured conference programme.

Interactive Approach

The second annual Environment Ireland conference is structured to provide a high level of interaction between speakers and delegates, with plentiful opportunities for questions as well as discussion in the conference sessions. Over coffee breaks and lunch, there will be ample scope for informal networking and business development for all attendees. Most of the speakers will be staying for the entire two days of the conference so there should be ample opportunity to follow up on any of the points made in presentations, and discuss further.

Valuable Networking Opportunity

Environment Ireland 2007 is about much more than just the discussion of policy and the latest thinking on the environment. The conference brings together all those with an interest in the environment, on any level, affording them the opportunity to socialise and network as well as engage in informal discussions that can lead ultimately to real business development.

Exhibition Opportunities

Running throughout the two days of the conference will be a lively exhibition, which offers organisations the opportunity to profile their goods and services to an audience who understand environmental issues and recognise environmental management as a priority. Delegates will be given maximum opportunity to visit the exhibition and speak with exhibitors – a valuable source of information and expertise. Further information on exhibition at the conference is set out on page 7 of this brochure.

Conference Registration

Advance registrations already indicate that this could well be the biggest Environment Ireland conference yet. It is therefore generally advisable to book as early as possible. Details of registration options, including telephone, fax, email and online are set out on the registration form at the back of this programme.

Conference Speakers

Elizabeth Arnett is a Technical Director with RPS Group and leads the Stakeholder Consultation Unit of the company. Elizabeth has over ten years of experience in environmental information campaigning. Prior to joining RPS, Elizabeth was the first ever manager of the Green Schools project and was instrumental in successfully establishing the project in Ireland.

Seb Beloe is the Vice President of Research and Advocacy at SustainAbility. He co-founded SustainAbility's US practice and has consulted to a wide range of companies (DuPont, Nike, Pfizer, Shell), NGOs (Greenpeace, WWF-UK) and multilaterals (IFC, UNEP) on corporate responsibility issues. He has also written for a variety of publications (Financial Times/The Guardian).

Catherine Bottrill is a researcher, working on the area of personal carbon trading and equity within the Environmental Change Institute at the Oxford University Centre for the Environment. She has completed a Masters in Environmental Management at the Yale School of Forestry and Environmental Studies, and has conducted environmental research in the USA, India and Pakistan.

Jim Bowman is a Programme Manager with the Environmental Protection Agency. He is responsible for water monitoring programs and the implementation of the Water Framework Directive (WFD). He has particular interest in lake water quality and the acidification of surface water. In recent years he has been a member of EU Common Implementation Strategy working groups dealing with technical aspects of the WFD implementation and is a member of the EU Strategic Coordination Group for the WFD.

Donal Buckley is Assistant Director of IBEC with responsibility for the policy development and representation of IBEC members on environmental, transport and energy issues. He is a Board member of Repak and a Member of UNICE Environment Working Group and Comhar. He is a former member of the EPA Advisory Committee.

Oisín Coghlan has been Director of Friends of the Earth (Ireland) since 2005. Previously he worked for 10 years in overseas aid and human rights, including two years working with immigrant banana workers in Belize and a year with Fairtrade Labelling Organizations International in Bonn. He is a member of the Board of Fairtrade Mark Ireland.

Frank Convery is Chairman of Comhar, which was formed in 1999 as the forum for national consultation and dialogue on all issues relating to sustainable development. He is also Chairman of Sustainable Energy Ireland, Ireland's energy agency, and is Heritage Trust Professor of Environmental Studies at University College, Dublin. Frank is active on a number of EU-wide investigations and bodies, including membership of the Science Committee of the European Environment Agency.

Joe Crockett was appointed County Manager for the County of Carlow in January 2003. Joe has extensive experience in public administration and management having served at many levels in both local and central government. Prior to taking up duty with Carlow County Council, Joe was Assistant County Manager with Meath County Council. He previously worked in the Department of Environment & Local Government where he worked in local government policy development, planning and other sections.

Paul Dolan has been with Partnerships UK since 2004, focussing on waste and transport projects. Previously he worked in the European Bank for Reconstruction and Development as a banker involved in infrastructure project finance and spent 11 years with a major USA-based sponsor of energy and projects, where his work included financing four large waste management projects.

Alison Fanagan is Head of A&L Goodbody's Environmental & Planning Group. She advises on the full spectrum of environmental and planning matters including advice on IPPC and waste licensing, third party liability claims, corporate support/due diligence, oral hearings (particularly relative to large infrastructural projects) and submissions on draft plans. She defends companies and their directors against environmental, planning and health and safety prosecutions, takes and defends planning injunctions and has particular experience in handling judicial review litigation.

John Gormley, TD is Minister for the Environment, Heritage and Local Government, a position he took up in June 2007. He represents the Dublin South East constituency for the Green Party, having been first elected to the Dáil in June 1997. He is currently party spokesperson on foreign affairs, defence and health and children. He is a member of Earthwatch, Amnesty International and the Chartered Institute of Water Management.

John Henry is the first Director/Chief Executive of the Dublin Transportation Office, a position he has held since 1996. He has been centrally involved in the development of the comprehensive transport strategy for Dublin known as A Platform for Change. In the early 1980s, he was involved in the development of a settlement strategy for the Greater Dublin Area followed by a two-year period spent on traffic and road maintenance in the Middle East.

Hannah Hislop is a Policy Officer with Green Alliance, where she has worked on projects including greening the forthcoming spending round and local government and climate change. She manages Green Alliance's Closing the Loop project, which focuses on policies to transform waste and resource use in the UK, and is joint author of A Zero Waste UK. Before joining Green Alliance, she was a scholar on Forum for the Future's masters programme in leadership for sustainable development.

Dominic Hogg is Director with Enumia Research and Consulting. He has recently completed a report, with Tobin Consulting Engineers, on Waste Policy, Planning and Regulation in Ireland which comments on the key issues confronting Irish waste management. Before setting up Enumia, he was Deputy Director of ECOTEC Research & Consulting Ltd., where he was responsible for the company's environmental policy and economics research.

Peter Jones is a Director of Biffa Waste Services Limited with specific responsibilities in external affairs and strategy development. He has 18 years experience in the waste industry and is a member of the Chartered Institutes of Marketing, Transport, and Wastes Management. He qualified from Nottingham University as an industrial economist in 1969, and in July 2007 received an honorary degree from the University of Southampton. Peter is also chair of the DEFRA/DIT Resource Efficiency KTN.

Abyd Karmali is Managing Director, Europe with ICF International's London Office and a Senior Vice President with the firm. Abyd has provided strategic advice on issues relating to the commercial risks and opportunities of the Kyoto Protocol and carbon constraints to European, US, and Asian companies as well as to government agencies and regional development banks. In 1996-97 he was Climate Change Officer at the UN Environment Programme's Industry office in Paris and participated in the Kyoto Protocol negotiations.

Mary Kelly is the Director General of the Environmental Protection Agency, having taken up the post in May 2002. Mary holds a PhD in Chemistry from Trinity College Dublin, and an MBA from Dublin City University. She previously worked with IBEC where she was involved in policy development in the environmental area. She was involved in setting up REPAK, the packaging recycling initiative. She was also a member of Comhar and the Advisory Committee of the EPA.

Dr Padraic Larkin graduated from NUI Galway with a PhD in Physical Chemistry. He started his career in the private sector and moved to An Foras Forbartha in 1978. He joined the Environmental Protection Agency, when it was first established in 1993, as Manager of the Licensing and Control Division and in 1998 was promoted to the Board of Directors. He is now Director of the Office of Licensing and Guidance and in 2004 he was also appointed Deputy Director General.

Ken Macken joined the Environmental Protection Agency in 1995 having previously worked as a consultant in air pollution and occupational hygiene with IIRS, Eolas and Forbairt. In 2003 he was appointed Programme Manager of the Emissions Trading Unit based in the Agency's Dublin office. The ETU have been responsible for producing Ireland's first National Allocation Plan for emissions trading, for establishing the permitting and verification schemes for those involved in the scheme and for operation of Ireland's National Emissions Trading Registry. Currently the second National Allocation Plan is under development.

Frank Maughan is an Assistant Principal Officer in the Department of Environment, Heritage and Local Government. He is responsible for domestic climate change policy issues, including coordinating the implementation of the National Climate Change Strategy and the EU Emissions Trading Scheme.

Sam McCloskey is a Regional Director at White Young Green, with responsibility for the Environmental team in the Derry office. She has over 13 years experience in environmental consultancy in Northern Ireland, across a broad range of sectors. Her main focus is Integrated Management Systems and risk evaluation at the core of systems development.

David Mulholland is the Managing Director Designate of Dalriada Water - the company which in 2006 won the Project Alpha PPP project awarded by the SIB and the Water Service of Northern Ireland. Prior to joining Dalriada, David was a Senior Manager in Deloitte's Belfast consulting practice where he worked on a number of public sector reform programmes including the provision of strategic and financial advice to DRD on the water reform programme.

Tom O'Mahony is an Assistant Secretary in the Department of the Environment, Heritage and Local Government. He is responsible for the Environment Division, which deals with policy on issues such as climate change, waste management, nuclear safety and sustainable development. He has previously worked in the Departments of Health, Finance and Agriculture and holds Masters Degrees in Economics and Public Sector Analysis.

Steve Rintoul is an Associate Director at Enviro. Currently his work is focused on assisting clients in developing sustainability policies, strategies and management systems. He is working with a number of Government Departments and Agencies (including MOD, DIT and NHS PASA) specifically on their Sustainable Procurement programmes.

Richard Rogers has been Chief Executive of the Environment and Heritage Service (EHS) since August 2001. His responsibilities range across the protection and conservation of the natural environment and the built heritage; and the control of pollution of air, water and land. Previously, Richard was Director of Environmental Policy in DoE and he formerly spent time working at the NIO, the Northern Ireland Assembly and within urban regeneration.

PJ Rudden is Group Business Development Director of RPS Group Ltd and RPS Consulting Engineers. He is also Chair of the new RPS All Island Business Development Board for North and South, covering transport, energy, water, waste, ports, airports, rail and environment. He had overall responsibility for Gas 2025 elements within Ireland including Gas Pipeline to the West and Second Gas Interconnector. In addition, he is involved in the strategic formulation of most of the country's new regional waste management plans and follow through to implementation.

Duncan Stewart is presenter and producer of RTE's top-rating environmental series, Eco Eye. Duncan is an award-winning architect and energy consultant and is well-known for his far-reaching interest in environmental issues. Duncan has also produced and presented many environmental TV documentary series.

Niels Thyssen is project manager at the European Environment Agency - an EU body located in Copenhagen - where he is responsible for assessments related to inland waters and aquatic biodiversity. His background is in the ecology of running waters and he has worked in this field in the Danish Ministry for the Environment until he joined the EEA in 1995.

John Tierney is Dublin City Manager. He began his local government career with North Tipperary County Council in 1977. He worked with eight different local authorities prior to joining Dublin City including North and South Tipperary County Councils, Limerick City and County Councils, Kilkenny County Council, Galway County and City Councils and Fingal County Council. John is Chair of the Steering Group, which monitors the Strategic Planning Guidelines for the Greater Dublin Area.

Sharon Turner is Professor of Environmental Law at Queen's University, Belfast. She has recently returned to Queen's following a secondment to the Department of the Environment (NI) where she was the senior legal advisor on the environment. Sharon has recently been appointed to the panel of external legal experts advising DoE. She specialises in environmental law, particularly the EU and Irish dimensions (north and south).

Professor Jim Walsh is Vice-President for Innovation and Strategic Initiatives at NUI Maynooth where he was Head of the Department of Geography between 1995-2005 and a founding member of the National Institute for Regional and Spatial Analysis (NIRSA). He was Co-Chairman of the Rural Ireland 2025 Foresight Group. He is the editor of People and Place: A Census Atlas of Ireland published in 2007.

Hendrik W van der Kamp is a practicing town planner and the Head of School of Spatial Planning in Dublin Institute of Technology. He has 25 years experience in professional planning practice in Ireland and has worked in Cork County Council, An Foras Forbartha, An Bord Pleanála, UCD and DIT.

Conference Programme Day 1 Morning

08.30 Registration and Coffee

PLENARY SESSION: Environmental Policy and Strategy in Ireland

09.00

Chairman's Welcome and Introductory Remarks

Tom O'Mahony, Assistant Secretary

DEPARTMENT OF THE ENVIRONMENT, HERITAGE & LOCAL GOVERNMENT

ALL-ISLAND POLICY SESSION: *Addressing Ireland's Environmental Policy Priorities*

John Gormley TD, Minister for Environment, Heritage & Local Government

Senior Representative, Department of Environment (Northern Ireland)

Towards 2020: The Environment in Ireland's Future

Mary Kelly, Director General, ENVIRONMENTAL PROTECTION AGENCY

Priorities for Protecting and Improving the Environment

Richard Rogers, Chief Executive, ENVIRONMENT AND HERITAGE SERVICE

10.15

Question and Answer Session followed by Morning Coffee/Networking Break

PLENARY SESSION: Working Towards a Sustainable Island

11.00

Chairman: **Frank Convery**, Chairman
COMHAR

A Legal Framework for Environmental Sustainability

Sharon Turner, QUEEN'S UNIVERSITY, BELFAST

Creating the Sustainable Company of Tomorrow

Seb Beloe, Director of Research and Advocacy
SUSTAINABILITY

Spatial Planning for Sustainable Rural Development

Jim Walsh, Vice President, Innovation & Strategic Initiatives
NUI MAYNOOTH

Managing Sustainable Urban Development

John Tierney, City Manager
DUBLIN CITY COUNCIL

Question and Answer Session

12.45

Conference Lunch

Conference Programme Day 1 Afternoon

- 14.00 The afternoon programme on Day 1 features a plenary session on Waste Management and two workshops examining the Local Environment and Water Resources. The workshops will run concurrently with the plenary session and will take place in the Ulster Room. Registration for the workshops will take place at the conference, and will be on a first-come, first-served basis.

Plenary Session: Waste Management

- 14.00 Chair: **PJ Rudden**, Chair, All Island Business Development Board, RPS GROUP
- Waste Policy and Regulation in Ireland*
Michael Layde, Principal Officer
DEPARTMENT OF ENVIRONMENT, HERITAGE AND LOCAL GOVERNMENT (*invited*)
- Investing in Waste Infrastructure*
Paul Dolan, PARTNERSHIPS UK
- Key Issues in Irish Waste Management*
Dominic Hogg, Director
EUNOMIA RESEARCH AND CONSULTING
- 15.45 Question and Answer Session
followed by Afternoon Coffee/Networking Break
- Applying Joined Up Thinking to Waste Management*
Peter Jones, Director – External Relations, BIFFA
- The Dublin Waste Management Plan*
Caroline Clancy, DUBLIN CITY COUNCIL
- Towards a Zero Waste Future*
Hannah Hislop, Policy Officer
GREEN ALLIANCE
- Question and Answer Session

Managing the Local Environment

(Ulster Room)

- 14.00 *Protecting the Local Environment*
Joe Crockett, County Manager
CARLOW COUNTY COUNCIL
- Local Environmental Planning*
Alison Fanagan, Partner
A&L GOODBODY
- Reporting Local Environmental Issues*
Paul Cunningham, Environment Reporter
RTÉ (*invited*)
- Question and Answer Session followed by
Afternoon Coffee/Networking Break

Water Resources Workshop

(Ulster Room)

- 15.45 Chair: **Jim Bowman**, Environmental Monitoring Unit
ENVIRONMENTAL PROTECTION AGENCY
- Status and Trends in Water Quality Across Europe*
Niels Thyssen, Project Manager
EUROPEAN ENVIRONMENT AGENCY
- Upgrading Northern Ireland's Water Infrastructure: The Alpha Project*
David Mulholland
Managing Director Designate
DALRIADA WATER
- The Water Services Investment Programme*
Terry Allen, DEPARTMENT OF THE ENVIRONMENT, HERITAGE AND LOCAL GOVERNMENT
- Question and Answer Session

- 17.00 ENVIRONMENT IRELAND Drinks Reception

Conference Programme Day 2

09.00

Broadcast Address from Commissioner Dimas, Commissioner for the Environment, EUROPEAN COMMISSION

A new feature for Environment Ireland 2007 will be the broadcast of a recorded address from the EU Environment Commissioner, Stavros Dimas. The Commissioner sends a message to the Environment Ireland delegates on Europe's and Ireland's environmental priorities and policies.

PLENARY SESSION: Environmental Managers Forum

09.20

Chairman's Opening Remarks: **Donal Buckley**
Assistant Director, IBEC

Best Practice Environmental Management in Industry
Vincent Boyton, Environment Manager, NOVARTIS

Managing Carbon: The European Emissions Trading Scheme
Ken Macken, ENVIRONMENTAL PROTECTION AGENCY

10.15

Question and Answer Session followed by

Planning, DUBLIN INSTITUTE OF TECHNOLOGY

Question and Answer Session

ROUND TABLE DISCUSSION Facing Up to Climate Change: Policies and Priorities

14.00

Chairman: **Padraic Larkin**, Director, ENVIRONMENTAL PROTECTION AGENCY

The National Climate Change Strategy 2007-2012
Frank Maughan, Assistant Principal, DEPARTMENT OF ENVIRONMENT, HERITAGE & LOCAL GOVERNMENT

Tackling the Climate Change Challenge: A Global Imperative
Oisín Coghlan, Director, FRIENDS OF THE EARTH

Carbon Rationing and Personal Energy Use
Catherine Bottrill, Environmental Change Institute, OXFORD UNIVERSITY CENTRE FOR THE ENVIRONMENT

The Role of Carbon Offsetting in Reducing the Effects of Climate Change
Abyd Karmali, Managing Director, Europe, ICF INTERNATIONAL

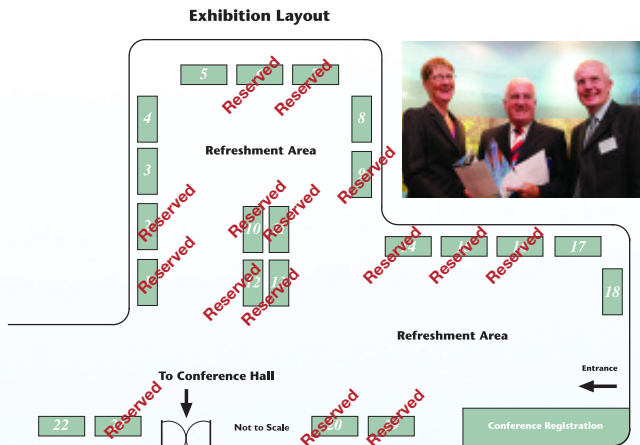

Round Table Discussion Panel - after their presentations speakers will participate in a panel discussion on climate change issues. Delegates will have the opportunity to engage with the panel and ask questions.

17.00

Conference Close

Conference Exhibition Space Available...

Give your organisation the right profile at **Environment Ireland 2007**

Environment Ireland 2007 will be a major event for making contacts, networking and lobbying and offers a limited number of high quality exhibition opportunities. A physical presence at the conference can be the best way to promote business and/or

draw attention to particular issues or activities.

The Environment Ireland conference will attract a wide attendance of organisations and individuals who have key role in issues relating to the environment. This will include policy-makers/decision-takers, regulatory authorities, environmental managers, consultants, lawyers, financiers, local authority senior officials, planners - a key audience for those with goods or services they wish to promote.

The exhibition space is ideally located in the large concourse area outside the main conference room. Conference delegates will automatically pass through this area going into and out of the conference sessions. All intervals/coffee breaks will be centred in the exhibition area, which will also be used for many informal meetings between delegates.

To ensure your organisation doesn't miss out on this opportunity for profile with this important audience, call +353 (0) 1 661 3755 for an exhibition pack. Details are also available on the Environment Ireland website www.environmentireland.ie.

ENERGY IRELAND YEARBOOK 2007

The Essential Sourcebook for the Irish Energy Sector

The Energy Ireland Yearbook is a must-have publication for anyone interested or involved in Irish energy and the environment from inside or outside Ireland. It is the **only** detailed all-island guide to Ireland's energy sector.

The Yearbook is a hardback, full colour volume packed with nearly 300 pages of useful information. Sections include:

- Energy policy and sustainable energy
- Profiles of Irish energy companies
- Detailed listings of consultants, advisers, equipment suppliers, representative groups

The Yearbook can be obtained from bmf Publishing by telephoning +353 (0) 1 661 3755 Alternatively, order the Yearbook online at

www.energyireland.ie

Environmental Protection Agency

The **Environmental Protection Agency (EPA)** protects the Irish environment. We regulate and police activities that might otherwise cause pollution. We ensure there is solid information on environmental trends so that necessary actions are taken. Our priorities are protecting the Irish environment and ensuring that development is sustainable. We employ 290 people who work in 10 locations throughout the country.

www.epa.ie

Our website provides information on the work of the EPA and on Ireland's environment. Online services include:

- Real-time air quality data from our network of air quality monitoring stations.
- Interactive maps highlighting river quality.
- Bathing water quality information.
- An online environmental complaints service.
- An online publication sales service.
- Education resource packs for primary and second level schools.

I wish to:

☐ **Reserve _____ delegate places at Environment Ireland 2007**

Conference Delegate Fee €495 + VAT@21% = €598.95

Fee includes documentation, lunch and other refreshments served during the conference and is payable in advance. Fee does not include accommodation or travel.

☐ **Attend Day 1 Only** ☐ **Attend Day 2 Only**

One Day Delegate Fee €295 + VAT@21% = €356.95

☐ **Receive Conference Documentation Pack €95**

If you are unable to attend the conference but wish to receive copies of the conference documentation, please tick the box, complete the registration form and return it to bmf with your cheque. Documentation will be presented in an attractive ring-binder format and posted immediately following the conference.

☐ **Receive an Environment Ireland exhibitors' pack**

Personal Details

Value Added Tax

As the conference is held in the Republic of Ireland, VAT is applicable @ 21% for all delegates, including those attending from outside the Republic of Ireland. This position has been verified by the Revenue Commissioners.

Environment Ireland • Environment Ireland • Environment Ireland • Environment Ireland

Who Should Attend?

Environment Ireland 2007 will be of interest to all senior managers and officials for whom environmental issues are important, including:

- Chief Executives / Managing Directors
- General Managers
- Senior Policy Makers
- Environmental Managers
- Technical Managers
- Engineering and Maintenance Managers
- Operations Managers
- Regulatory Officials
- Facilities Managers
- Engineering Contractors
- Building Services Managers
- Planning Professionals
- Business Analysts
- Development Agency Managers
- Local Government Officials
- Environment Consultants
- Legal Advisors

Benefits of Attending

Overall, the Environment Ireland Conference will cover a wide range of issues over its two days duration. Delegates across a range of sectors impacted by environmental issues will be brought up to speed on legislative and regulatory developments - something that will inform their planning whether public or private sector. Environmental managers will benefit from this too but also from insights gained from expositions on best practice environmental management and new developments and thinking in the field. In addition to the content of the conference sessions themselves there will be ample opportunity for networking and exchanging ideas, within an influential audience.

Printed on 100% Recycled Paper *Cyclus Paper is produced from 100% recycled de-inked post consumer waste. This process is managed within their own de-inking plant. All by-products from both the pulp and paper production are used for a variety of things including fertiliser, cement production and energy for heating the local community. By using all off the by-products in this way creates a genuine 100% recycling process and entirely eliminates what may otherwise have gone into landfill waste.
