Theme for 2016

Working Together From Source to Sea *Science to Action*

Dedication

Am Ende des Semesters wird die Arbeit der Studierenden bewertet.

Some Concepts to Chew On Over the Next Two Days

- We achieve more working together than apart – very good progress in last two years
- Seek out the common ground and work with this
- Collaboration works but is not always easy
- Perseverance pays off in the end

Catchments.ie – New One Stop Shop for WFD Information

The screenshot shows the homepage of the Catchments.ie website. The background is a scenic landscape of a river valley with green hills and a body of water. The website has a dark blue header with the 'catchments.ie' logo and navigation links: Home, Learn +, Maps, Data, Resources, Stories, News, and Contact. A search icon is also present. The main content area on the left features the text 'Welcome to Catchments.ie - Water from source to sea.' followed by a paragraph about water as a precious resource and a 'Find out more' button. On the right, there is a 'Get involved' section with a form for 'First name', 'Surname', 'Email', and 'County'. Below the form are checkboxes for 'I agree to your terms of use and privacy policy' and 'I'm not a robot' (with a reCAPTCHA logo). A 'Sign me up' button is at the bottom of the form. At the very bottom of the page, there is a footer with the text 'This site has been developed, and is hosted and maintained, by the Environmental Protection Agency.' and the 'epaCatchments' logo with the tagline 'Healthy • Resilient • Productive'. A cookie notice at the bottom center says 'This site uses cookies: Find out more.' with an 'Okay, thanks' button. The browser's address bar shows 'https://www.catchments.ie/' and the taskbar at the bottom displays various open applications and the system clock showing 09:39 on 03/06/2016.

Welcome to Catchments.ie - Water from source to sea.

Water is a precious resource and is essential for all life on earth.

Looking after our rivers, lakes and coastal waters so they can meet our current and future needs, and also continue to support the ecosystems that depend on them, is vital for Ireland's future.

Doing this at community level is the best way to get people actively involved.
