Dear Mr Gilsenan

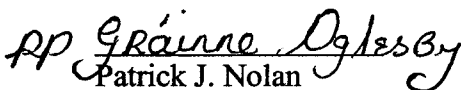

I refer to the Agency's letter of 29th June 2007 and your reply dated 23rd July 2007.

The information sought by the Agency is required in order to determine the licence application, which you have submitted.

The Agency cannot grant a licence unless it is satisfied that emissions from the activity will not cause significant environmental pollution, and this includes the landspreading of slurry from the activity on lands, whether owned by the applicant or others.

The Agency proposes to proceed as set out in the letter dated 29th June 2007 unless the requirement is complied with.

Yours sincerely,

Patrick J. Nolan
