

Circular Business Model: Zero Waste Refill Store

Refillz opened its first store in Naas, 2021, providing customers with an alternative and sustainable way to shop plastic free. Customers can bring along their own containers, and avail of a wide range of pantry staples, snacks and cleaning supplies.

Refillz opened a second store in Portarlinton, Laois in 2022, and have since launched an online store, including eco-friendly, locally sourced products, supporting Irish businesses.

Refillz reduces reliance on plastic packaging and production along the supply chain, promoting conscious reuse.

Refillz featured as a 'Local Circular Solutions' organisation at the EPA Circular Economy Conference in 2024
