

# The Revamp Tramp

## Circular Business Model: Furniture Upcycling

Founded in 2015, the Revamp Tramp is a creative furniture upcycling initiative that brings old furniture back to life.

The idea grew from a desire to fuse creativity with environmental sustainability. The Revamp Tramp offers many kinds of furniture upcycling workshops from private groups to school workshops.

The organisation also creates accessible video tutorials spreading knowledge about various upcycling techniques, helping people engage in upcycling in their homes.

**The Revamp Tramp featured as a 'Local Circular Solutions' organisation at the EPA Circular Economy Conference in 2024**
