

A large graphic on the left side of the page features a circular arrangement of arrows in various colors (blue, green, orange, white) pointing in different directions, symbolizing a cycle or flow of ideas and resources.

Tog Hackerspace

Circular Business Model: Community Repair Initiative

Tog Hackerspace is Dublin's community makerspace – a shared, supportive environment where people come together to create, learn, and collaborate. We are partnered with the Community Resource Network Ireland

We promote circularity through regular Repair Cafés and workshops across Ireland, where volunteers and visitors repair broken electronics, household goods, textiles, and more. These events extend the life of items, reduce waste, and pass on valuable repair skills.

By sharing knowledge, tools, and equipment in an open and inclusive space, Tog fosters a culture of repair, reuse, and resourcefulness at the heart of the circular economy.

Tog Hackerspace featured as a 'Local Circular Solutions' organisation at the EPA Circular Economy Conference in 2023
