

DRINKING WATER QUALITY PUBLIC SUPPLIES

Drinking water quality public supplies 2017

If there's a problem

National priorities

- Disinfection** keeping water free of bugs
- Trihalomethanes** minimising disinfection by-products
- Lead** Eliminating lead from our networks
- Pesticides** Preventing them from entering our waters
- Water Safety Plans** Managing the risks to our supplies

Irish Water to develop and implement strategies

What you can do

- Replace any lead fittings in your home
- Don't waste water
- Use pesticides responsibly
