

# Monthly Report of EPA Licensing and Authorisation Decisions

Covering the period 1st January 2026 to 30th June 2026

## Explanatory notes:

- This report provides aggregated data on EPA licensing and authorisation decisions on a cumulative basis in 2026.
- The EPA is publishing this information as part of national efforts to enhance transparency around regulatory decision-making.
- The data will be updated and published monthly in this aggregated format.
- Information on individual applications is publicly available on the EPA's LEAP Portal (<https://leap.epa.ie/>).
- Readers should note that the median, minimum and maximum weeks to decision figures are based solely on decisions made during the reporting timeframe.
- Finally, readers should be aware that timelines for the delivery of EPA decisions may be impacted by several factors including:
  - the need to await planning consent;
  - ongoing judicial reviews of decisions on planning permissions; or
  - the volume of applications exceeding capacity, resulting in extended waiting times before the assessment of an application commences.

Feedback on the format and content of the report is welcome and can be sent to [licensing@epa.ie](mailto:licensing@epa.ie).

# Summary of EPA Licensing and Authorisation Decisions

01/01/2026 to 30/06/2026

|                         |                       | Industrial & Waste                        |                          |                            |                                          | Wastewater & Water           |                                   |                           |                       | Circular Economy        |                          |
