Attachments: [7625 151020 Air Emissions Dust Monitoring Points Operations.pdf](#)

Dear David,

Further to telephone call earlier this morning we respond to the queries, as follows:

1. Dust Monitoring Locations

Attached is the map showing the 5 No. dust monitoring locations as requested for the asphalt plant operations.

2. Planting on the Northern boundary

We confirm the following in italics in relation to your query on the planting on the Northern boundary:

Significant impacts on vegetation are not likely beyond 50m. This is further reduced by the presence of earth banks or vegetative screening onsite, disrupting the emission pathway and shielding receptors. The existing hedge to the north of the site is increasing in width and density and will be over 4m in width.

We trust the above is of assistance in terms of progressing the application.

Thank You,

Brendan

Thanks Dave,
The NIS from the planning permission has been uploaded to the link you provided below.
Thank you,
Brendan

Hello David,

Would it be possible to send the share point link, as discussed?
We are just checking it here and it is too large to email.
Thank you,
Brendan

Subject: Air Licence Application

Hi Brendan

In relation to the Air Licence application one of the items we require is a Natura Impact Statement (NIS) for the site proposed for the asphalt plant.
We note in the planning application (ref 17/1438) for the asphalt plant, a Natura Statement was included. Please forward a copy of this Natura Statement for our files.
When this Natura Statement has been reviewed by the Environment Section we will be able to give you a further update on this application.

Regards Dave
