

## Applying for a water abstraction licence in the Water Abstractions Module on EDEN

A licence application must be made for the following:

- An abstraction that is  $\geq 2,000\text{m}^3/\text{day}$ .
- An abstraction between 25 and  $1,999\text{m}^3/\text{day}$  that, following assessment by the Agency, is determined to require a licence.

This guidance should be read in conjunction with the “*Water Abstractions and Associated Impoundments Registration and Licence Application Guidance Document*” which is available [here](#).

Log in to EDEN <https://www.edenireland.ie/> and select the Water Abstractions Module. WAM - Water Abstraction Module is circled in red in the screenshot below. If you have not previously registered for EDEN, instructions on getting set up with an account are available [here](#). Additional supporting material for water abstraction registration is available [here](#).

Within EDEN, a web form for water abstractions with four tabs must be completed – Organisation (Tab 1), Abstraction Details (Tab 2), Supplementary Info (Tab 3) and Submission (Tab 4).

The  button appears throughout the webform and can be clicked on for further information.

### New Water Abstraction Application

#### About this web form

This web form is for the purpose of:

- giving notice to the EPA of an abstraction for entry by the EPA in the Abstraction register,
- making an application for an abstraction licence

The web form provides for the registration and licensing of water abstractions and associated impoundments, required under the Water Environment (Abstractions and Associated Impoundments) Act 2022 and Water Environment (Abstractions and Associated Impoundments) Regulations 2024. The web form is designed to gather prescribed information but does not purport to be and should not be considered a legal interpretation of the provisions and requirements of the Act and associated Regulations. The Act and Regulations shall take precedent over the contents of the web form.

The web form must be completed according to instructions included in the web form and available on the EPA website. All information should be submitted to the EPA via this electronic web form. A valid notice or application for a licence must contain prescribed information.

Further information and guidance is available on the Environmental Protection Agency's website at <https://www.epa.ie/licensing/watwaste/watabs/> and the EPA can be contacted by email at [licensing@epa.ie](mailto:licensing@epa.ie).

The information you provide in this web form will be used by the EPA to assess your notice or application for a licence and may be used for other EPA purposes.

#### Public Access

Information supplied in this web form including supporting documentation and attachments will be put on public display on the internet and is therefore open to inspection by any person.

Please note that the EPA is subject to Freedom of Information Act 2014 and the Access to Environmental Information Regulations 2007 as amended. Any information that you save to EDEN at any time will be stored on the EPA's IT system and will be made available as required under law, including the above legislation.

The EPA does not publish personal information or other information that could jeopardise the security of drinking water supplies. This is in accordance with the protection of critical national infrastructure direction included under the EU Directive 2016/1148.

#### Confidential Information

Should you consider information to be confidential, this information should be submitted in a separate enclosure to the headquarters of the EPA bearing the legend "In the event this information is deemed not to be held as confidential, it must be returned to .....". In the event that the information is considered to be of a confidential nature, then the nature of this information, and the reasons why it is considered confidential (with reference to the "Access to Information on the Environment" Regulations) should be stated in the submission and the web form, where relevant.

#### Privacy Policy

Access to personal data provided is to be strictly controlled. The Environmental Protection Agency (EPA) are the primary data controllers. The website privacy policy is available on the Environmental Protection Agency's website at <https://www.epa.ie/footer/privacypolicy/>.

By visiting this website, you are accepting the terms of this Website Privacy Policy. Any external links to other websites are clearly identifiable as such and we are not responsible for the content or the privacy policies of these other websites.

#### File and attachment size

All files attached to this web form should be submitted in searchable PDF format and be no larger than 50MB each in size.

To commence the process and to gain access to the web form please confirm the declaration below and click on the 'Create New Water Abstraction' button.

☐ I confirm that:

- I have read the information above, the website privacy policy and the relevant guidance on the EPA's website at <https://www.epa.ie/licensing/watwaste/watabs/>
- I declare that the information and particulars I provide within this 'Registration Form' are to the best of my knowledge truthful, accurate and complete.

Create New Water Abstraction

Terms and conditions are summarised with links to support materials. Tick the box to confirm declaration and consent. Click “Create New Water Abstraction Registration”

### Existing registered abstractions requiring a licence

For an existing water abstraction  $\geq 2,000\text{m}^3/\text{day}$  or an existing abstraction  $\geq 25$  and  $\leq 1,999\text{m}^3/\text{day}$ , that the Agency has determined requires a licence, the applicant selects the “Water Abstraction Review” option. The system displays the existing registered abstractions, and the applicant is required to “initiate review” to commence the process or “manage review” where the review has been initiated but not yet submitted.

[Request Access to Additional Licence or Authorisation](#)

### Application process – For both new and existing water abstractions

The water abstraction web form opens. There are four tabs to complete – Organisation (Tab 1), Abstraction Details (Tab 2), Supplementary Info (Tab3) and Submission (Tab 4).

For abstractions  $\geq 25$  and  $\leq 1,999\text{m}^3/\text{day}$  that have been determined by the Agency to require a licence, information on Tabs 1, 2 and 4 will already have been submitted. To make an application for such an abstraction, these will appear as above and can be accessed through the manage review button also. Tab 3 will now be available for completion and, once completed, the applicant will be required to complete Tab 4 again to confirm the details of their application.

## Tab 1 - Organisation

In Section 1.1, tick box to confirm organisation details.

[Next >](#)

In Section 1.2, select the primary contact for correspondence from the drop-down list. Where the contact does not appear in the drop down list, they must register for the organisation with <https://www.edenireland.ie/> (further information on EDEN is available [here](#)).

Where the selected primary contact is an agent acting on behalf of the organisation, you are required to complete Section 1.3 and provide a contact for the organisation. Both the primary and organisation contact will receive email notifications of correspondence issued through EDEN.

An applicant should click the “Check” option on any tab of the web form to highlight any validation errors associated with that tab.

After any validation errors have been addressed, click “save” and then “next” to move to the next tab.

In order to submit your application, you are required to tick the “I confirm” box, “save” and then “submit”. Any validation issues (sections not completed) will be highlighted, and you will not be able to submit your application until these are addressed.

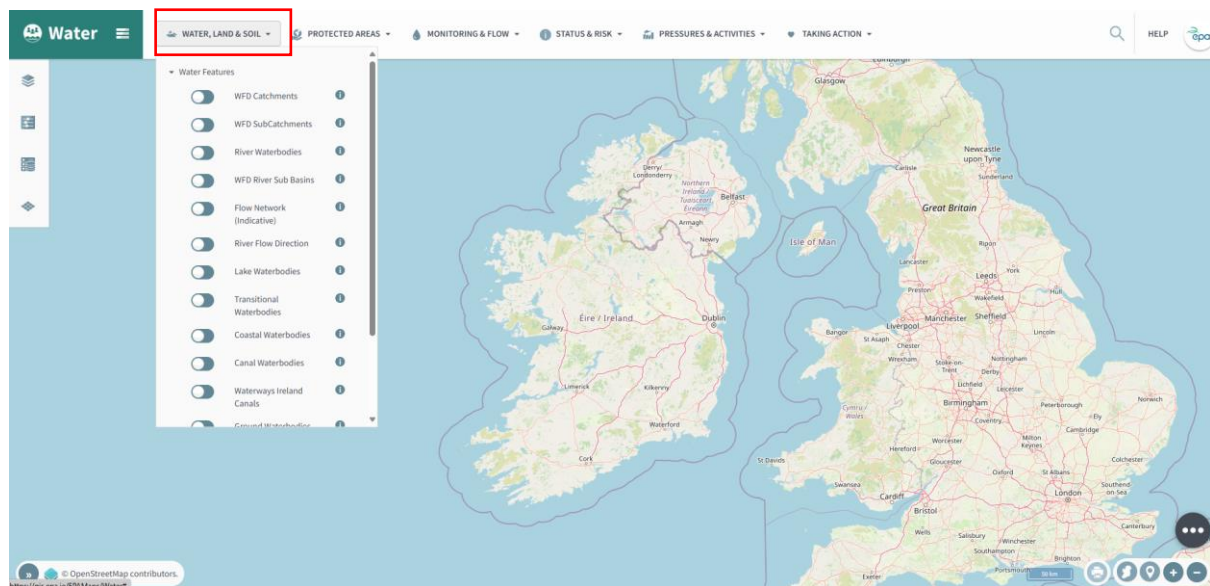

You will receive an email confirming your application submission and you should retain this for your records.

## Appendix 1. Finding the waterbody code

Waterbody codes can be found on <https://gis.epa.ie/EPAMaps/Water>, if required. The screenshots are provided below to assist.

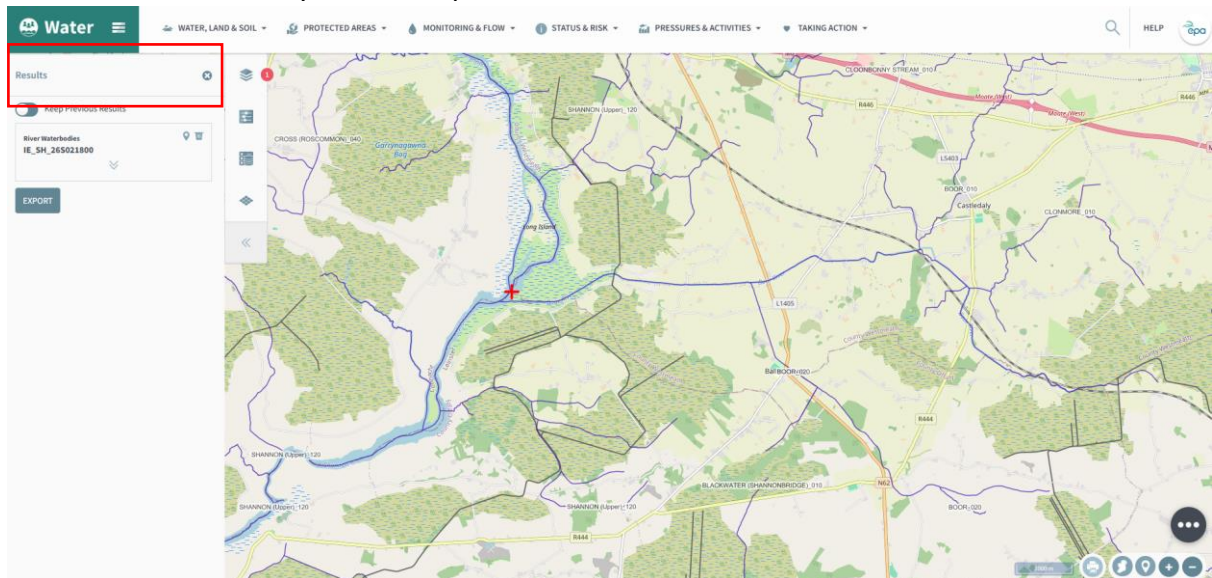

Select Water from the menu bar on the left of the screen.

Using the “Water, Land & Soil” drop down menu and the “Water Feature” dropdown, select the required waterbody option e.g. River Waterbodies.

In this example, all River Waterbodies will show. Zoom to the require location and click on the relevant waterbody on the map.

The WFD code will show on the left-hand side of the screen.
