Genetically Modified Organisms (Deliberate Release) Regulations, S.I. No. 500 of 2003  
**PROPOSED DELIBERATE RELEASE OF A GENETICALLY MODIFIED ORGANISM**  
MeiraGTx UK II Limited, 92 Britannia Walk, London, N1 7NQ, United Kingdom in accordance with the above legislation has given notification to the Environmental Protection Agency (EPA) of a proposal to release the Genetically Modified Organism (GMO), AAV5-hRKp.RPGR, for the conduct of clinical trials:  
• MGT-RPGR-021: Phase 3 Randomized, Controlled Study of AAV5-hRKp.RPGR for the Treatment of X-linked Retinitis Pigmentosa Associated with Variants in the RPGR gene; and  
• MGT-RPGR-022: Phase 3 Follow-up Study of AAV5-hRKp.RPGR for the Treatment of X-linked Retinitis Pigmentosa Associated with Variants in the RPGR gene.

Description of the genetically modified organism  
AAV5-hRKp.RPGR is a gene therapy product derived from a recombinant, replication-incompetent, adeno-associated virus (AAV) viral vector with a serotype 5 capsid (AAV5). AAV5-hRKp.RPGR is currently being developed for patients with X-linked retinitis pigmentosa (XLRP) caused by mutations in the human retinitis pigmentosa guanosine triphosphatase regulator (RPGR) gene. AAV5-hRKp.RPGR will be administered to patients via the subretinal space following a standard surgical vitrectomy. The overall objective is to see whether a healthy version of the RPGR gene delivered to the retina by injection during a surgery can correct the defect and improve vision or stop the deterioration of vision.

Purpose of the proposed deliberate release  
The purpose of clinical trial MGT-RPGR-021 is to study AAV5-hRKp.RPGR for the treatment of XLRP and the purpose of clinical trial MGT-RPGR-022 is to follow-up on participants treated with AAV5-hRKp.RPGR during the MGT-RPGR-021 clinical trial, and allow for the initial treatment of participants who were randomly assigned to the deferred treatment group in MGT-RPGR-021.

Date and Location of Release  
The proposed treatment and follow up of patients with AAV5-hRKp.RPGR will take place at Clinical Research Facility at The Mater Misericordiae University Hospital, Eccles St, Dublin 7, D07 R2WY, Ireland between December 2021 - December 2023 for MGT-RPGR-021, and December 2021 - December 2028 for MGT-RPGR-022.

In accordance with article 16(1) of S.I. No. 500/2003, any person or body may, within the 28-day period beginning on the day of publication of the notice and subject to the payment of the fee specified in article 48 (€10), make representations in writing to the Agency regarding this notification. Representations will be to the Environmental Protection Agency, P.O. Box 3000, Johnstown Castle Estate, Co. Wexford, Y35 W82L. Further information on fee payment and the proposed deliberate release may be obtained from the EPA.
