

EPA Research Call 2023 – Opening Soon!

Up to €16m available to fund research projects to support policy- and decision-making addressing environmental, climate change and sustainability challenges

The EPA Research Call 2023 includes

5 themes to support innovative research to inform policy and build capacity in current and emerging priority areas

Nature-based solutions: delivering co-benefits for the environment and society

Addressing the societal dimension of environmental challenges

Harnessing data and digitalisation for the environment

Advancing climate science for Ireland

Climate adaptation: planning for an uncertain future

22 topics to address identified research and evidence needs to inform, develop and implement national policy

Projects will receive proactive support from the EPA to transfer research to policy and achieve impact
